

## Certificate in Historic Preservation Studies

This certificate is available to students currently enrolled in a master's program at UGA as well as individuals who already hold a master's degree.

The intent of the certificate in Historic Preservation Studies is:

- To develop within students an awareness of the contribution that historic resources make to the quality of environments and to the quality of life available to the general populace.
- To foster an understanding of historic preservation needs, problems, and opportunities and the role that individual citizens can play in the protection and perpetuation of historic resources.
- To prepare students, as citizens within their respective communities, to serve as volunteer members of citizen preservation organizations and/or government commissions and to provide informed leadership to these and any other community preservation efforts.
- To provide students an opportunity to study historic preservation as a part of their academic program or as a supplemental educational opportunity available to those who already hold a master's level degree.

The certificate program requires a student to complete a minimum of **15 hours** of credit. These must include the 6 hours of certificate core requirements with the remaining 9 hours to be selected from the historic preservation curriculum. Three hours of the certificate requirements may be satisfied by a preservation-related thesis in the student's academic department. The thesis proposal must be jointly approved by the graduate coordinator or major professor of the student's degree program and the Graduate Director for Studies in Historic Preservation.

### Required Courses (6 hours)

1. HIPR 6000-Introduction to Historic Preservation (3hrs), **or** HIPR 6030-Principles and Practices (3hrs)  
**AND**
2. LAND 6620-Evolution of American Architecture (3hrs)

### Electives\* (9 hours)

HIPR 6070-Regional Studies in Heritage Conservation (3hrs)  
HIPR 6072-Issues in International Heritage Conservation (3hrs)  
HIPR 6100-Cultural Resource Assessment (3hrs)  
HIPR 6120-Historic Site Interpretation (3hrs)  
HIPR 6200-Preservation Law (3hrs)  
HIPR 6350-Building Materials Conservation (3hrs)  
HIPR 6440-Historic Landscape Management (3hrs)  
HIPR 6460-Rural Preservation (3hrs)  
HIPR 6480-Historic Landscape Preservation (3hrs)  
HIPR 6510-Preservation Economics (3hrs)

HIPR 6660-Preservation Design Studio (3hrs)  
HIPR 6750-Special/Independent Studies (1-3hrs)  
HIPR 6800-Contemporary Preservation Perspectives (3hrs)  
HIPR 6811-Coastal Field Studies (3hrs)  
EDES 6610-Vernacular Architecture (3hrs)  
EDES 6630-History of 20th Century Architecture (3hrs)  
EDES 6560-History of the Built Environment II (3hrs)

\*Note that frequency at which courses are offered may vary. Other classes offered in the College of Environment and Design may be approved by the Historic Preservation Coordinator if demonstrated to be relevant and appropriate to the Certificate.
