Hello Wonderful BLA Students —

Please see the 10 very important announcements below.....there is a big prize to the first 5 students who can stop by my office and tell me briefly what they read!! All info is critical and should be logged in to your brain this week!

1. FROM the CE+D I.T. DEPT:

   We are pleased to announce an improvement to the scanning features in the copiers in Owens, Tanner, 127, or 031. From these devices, you can now scan to:

   - Directly to a USB drive
   - OneDrive. (Remember OneDrive gives you free 1 Tb of cloud storage while your affiliated with UGA).
   - Your UGA Email
   - Completed Scans folder on the server

   You’ll notice the home screen on the copiers has changed a little bit. You should see 2 scan buttons “Scan to USB” or “Scan to My Email” and “Scan to Completed Scans” to a folder on the server. From these devices, you can now scan to:

   - Directly to a USB drive
   - OneDrive. (Remember OneDrive gives you free 1 Tb of cloud storage while your affiliated with UGA).
   - Your UGA Email
   - Completed Scans folder on the server

   Then you will be presented with three choices:

   - “Scan to My Email”: Sends the scan directly to your UGA email address. (No manually typing address required)
   - “Scan to UGA OneDrive”: Sends your scan to your OneDrive folder
   - “Scan to Completed Scans”: Sends the scan directly to your UGA email address. (No manually typing address required)

   Once your desired choice is selected, you’ll have the opportunity to change the filename and any of your typical scan settings (dpi, page size, file type, etc.) NOTE: The first time you scan to OneDrive, you will receive a e-mail from Scans@papercut.com prompting you to sign in, after that, all scans will go directly into a folder it will create in your OneDrive account.

   You will also receive email delivery or failure notifications, also from Scans@papercut.com that also includes information on the directory where its located. Filed names will default with your username and date unless you change it. We hope this feature will prove beneficial to you. We will continue to tweak and adjust as needed and please report any issues you run into to cedhelp@uga.edu.

Chris Balthrop, HDI-CSR, A+

2) From the CE+D Graduation Committee:
3) From Coordinator of Undergraduate Studies – Prof. Brad Davis:

Struggling with LAND 2220?? LinkedIn Learning (formerly Lynda.com) can really help! Simply go to your UGA my ID page and with all the other icons, please notice the small blue box with white letters (IN) beneath the Athena icon...Click there, enter your email and a host of free courses, tutorials, seminars, & presentations – all related to whatever topic you choose, are at your fingertips. The Graphic Design and Technology offerings are amazing!

4) From Prof. Reinberger in Historic Preservation: Cool MAYMester 2020 on the southern US coast! Go to the beach, learn history & conservation skills, get course credit! Amazing opportunity - sign up soon!! See below.

Preservation Field School – Georgia Coast May 16 – 30, 2020 (Maymester)  3 credit hours
College of Environment and Design, University of Georgia

HIPR 4811/6811
Taught by Taylor P. Davis, MHP and Mark Reinberger

This program is a three week intensive course that serves as an introduction to the field of Historic Preservation along with skills in site documentation, hands-on conservation techniques, and conservation strategies for cultural resources on Georgia’s coast. Techniques of measuring will consist of traditional hand measuring and simple surveying. Conservation skills include carpentry, masonry, epoxy, and painting. Site visits to Sapelo Island, Cumberland Island, Fort Frederica, and other sites will examine differing approaches to conservation and interpretation.

The primary location for field work is Jekyll Island, Georgia, where we work on the 19th century historic houses in the Jekyll Island Historic District. Relatively inexpensive housing will be available on Jekyll Island. Minimal additional costs will cover other costs such as boat rides and site admissions. The total program cost, including housing, will be about $450.00. Transportation to the coast and food are not covered. We will spend two weeks at the coast, May 16-30.

If interested, please call Professor Mark Reinberger, 542-4172 reinberg@uga.edu.
5) From UGA Service Learning Office via our own Jennifer Lewis! Prestigious opportunity to serve! Great networking opportunities and super resume builder....if your schedule allows you to participate.

- Do you know a student who would benefit from an opportunity to apply his or her developing academic content knowledge to help serve our state through the university’s public service and outreach mission? The Public Service and Outreach Student Scholars program is now accepting applications for 2020-21, due Mar. 30.

This program, established in 2011, annually selects up to 20 undergraduates to learn about and engage in UGA’s Public Service and Outreach (PSO) mission and activities. It includes fall cohort meetings and trips, as well as a 150-hour spring internship with a PSO unit, with possible funding for an additional paid summer internship. Selection will happen during April, with notification by the end of the semester; mandatory fall program activities include meetings on Fridays, 12:20-2:15 as well as cohort trips. Past participants have called it “the single most impactful thing I have done during college” and “the most influential program for me at the University of Georgia in terms of helping me articulate my career goals and community service interests.”

UGA’s PSO units include the Archway Partnership, the Carl Vinson Institute of Government, the J. W. Fanning Institute for Leadership Development, the University of Georgia Center for Continuing Education, Georgia Sea Grant, the Marine Extension Service, the Office of Service-Learning, the Small Business Development Center and the State Botanical Garden of Georgia. Students from a wide range of majors are able to collaborate with PSO initiatives through this program. For instance, majors or interests relating to biology, marketing, political science, economics, education, instructional technology/GIS, ecology, journalism, health promotion, and more, may find projects of interest with these units. Internship placements are also available with the Office of the Vice President for Public Service and Outreach and the PSO Communications office.

Interested students must apply by March 30 for next year’s program. Application materials, including full program details, application cover sheet, and faculty reference form are attached here, as well as available for download at http://servicelearning.uga.edu/pso-student-scholars/.

Please share with any interested students; feel free to contact me at pmatthew@uga.edu or 706-542-0892 with any questions. And, let us know if you’d like a current Student Scholar to speak to your class or group.

Thanks!
Paul Matthews

6) From UGA Health Center: Because, WHY NOT? You are totally worth having a great day!
7) From a grass-roots, student-led org striving to improve the CE+D. Please complete survey! Follow this link: https://ugeorgia.ca1.qualtrics.com/jfe/preview/SV_01fAXH8AHTcvYdD?Q_SurveyVersionID=current&Q_CHL=preview

9) From Root Awakenings – event is not cheap but has world-famous speakers from the Horticulture field! Do the names Armitage and Dirr mean anything to you? They should! For tickets, visit: rootawakeningnow.com

Sat, Feb. 29, 2020 at 10:00 AM
Platt Brooks Plantation 102 East Church Street, Lexington, GA 30648
Join us at Root Awakening, a fun festival for learning about garden plants. Become a “rooter” as part of the Root Awakening movement. Saturday, February 29th will be a fun day, filled with growth, ideas, and inspiration to take home for gardening with the children in your life. We look forward to seeing you there!

===================================================================================

10) From your Media Specialist in the CE+D:
The Owens Library will have reduced hours on Thursday, Feb. 6th and Friday, Feb. 7th.

We will be OPEN:
Thursday: 9:30 a.m.- 2 p.m.
Friday: 11:30 - 5:30 p.m.
Regular hours (9 a.m. to 5:30 p.m.) will resume Monday, Feb. 10th.
