

# R. Alfred Vick, PLA, LEED Fellow Professor, University of Georgia

## EDUCATION

Master of Landscape Architecture, University of Georgia August 1998  
Bachelor of Science, University of Illinois – Urbana-Champaign May 1993

## PROFESSIONAL LICENSURE AND CERTIFICATIONS

Professional Landscape Architect (PLA), State of Mississippi #664 2016 - Present  
CLARB Certified Landscape Architect 2016 - Present  
Professional Landscape Architect (PLA), State of Georgia #001268 2001 - Present  
LEED Fellow 2013 - present  
LEED Accredited Professional BD+C 2003 – Present

## HONOR SOCIETIES

American Mensa, Member 2014-present  
Phi Kappa Phi, National honor society 2007  
Sigma Lambda Alpha, Professional honor society 1998

## ACADEMIC EXPERIENCE

University of Georgia  
Director, Environmental Ethics Certificate Program (EECP) 2019-present  
Georgia Power Professor in Environmental Ethics 2013 - present  
Faculty of the Institute for Native American Studies 2008 - present  
Faculty of the Institute for Resilient Infrastructure Systems 2018 - present  
Faculty of Engineering 2008 – present  
Faculty of The River Basin Center 2015 – present  
Interdisciplinary Certificate in Sustainability Affiliate Faculty 2015-present  
Associate Professor with Tenure 2010 - present  
Assistant Professor 2004 - 2010  
Graduate Faculty 2004 - present  
Temporary Instructor 1998 - 2003  
Teaching Assistant 1996 - 1998

## PROFESSIONAL EXPERIENCE

Alfred Vick Environmental Design LLC  
Principal 2019-present  
Solidago Design Solutions, Inc.  
Principal 2008-2020  
Ecos Environmental Design, Inc.  
Vice President 2004 - 2008  
Senior Associate 2001 - 2003  
Associate 1998 - 2001  
Intern/Part-time Associate 1997 - 1998

## PROFESSIONAL DEVELOPMENT AND CONTINUING EDUCATION

Natural Channel Design River Restoration Courses  
River Restoration and Natural Channel Design 2002  
River Assessment and Monitoring 2001  
River Morphology and Applications 2000  
Fluvial Geomorphology for Engineers 1999  
Bahamian Marine Biology Field Course  
North Park University/Shedd Aquarium 2001  
Georgia Adopt-A-Stream  
Biological Quality Assurance / Quality Control Certification 1999  
Chemical Quality Assurance / Quality Control Certification 1999

## **NEW COURSE DEVELOPMENT**

### *LAND 2310 – Introduction to Sustainability*

Redevelopment of this course in order to emphasize issues and practices of sustainability.

### *LAND 2310 – Landscape Ecology Processes & Materials*

This course had been on the books, but had not been taught since 1998, until spring of 2010. Focuses on the foundations of environmental science and ecology necessary for responsible and ethical design and use of the land.

### *LAND 4440/6440 – Field Study: The Plant Communities of the Cherokee Landscape*

This course focuses on the plant communities of the ancestral Cherokee homeland in the Southern Appalachians, and investigate the changing landscape along the route of the Trail of Tears, terminating in northeastern Oklahoma.

### *HIPR 4680/6680 – Design Charrette: Tsa-La-Gi 18<sup>th</sup> Century Cherokee Village*

Design application of knowledge gained in LAND 4440/6440 through the design of an educational replica of a 1710 Cherokee Village.

*LAND 6400 – Plant Communities of the Southeast*

Refinement of course developed by Darrel Morrison, FASLA focusing on field study of native plants in the coastal plain, piedmont and mountains of the Southeastern United States.

*ENGR/LAND 4660/6660 – Sustainable Building Design*

Co-developed a cross-listed course that will address specific green building technologies, practices and processes.

*LAND 4730 – Issues & Practices in Sustainable Design*

Developed a two credit hour required course focusing on the green building strategies, technologies and documentation recommended by the LEED Rating System.

*LAND 4360 – Applied Landscape Ecology*

This course has undergone significant revision in the nine years that I have been teaching it. Of note is the introduction of a three week GIS module in the Fall semester of 2006.

*LAND 4911/6911 – Chattahoochee River Corridor Studio*

Worked with several other UGA faculty and outreach staff to develop a funded summer studio that identified opportunities to enhance the quality of life in the Chattahoochee corridor through the development of cultural and natural heritage tourism.

*LAND 6912 – Special Environmental Studio*

I developed this summer studio in direct response to funding obtained by former Dean Jack Crowley to produce an environmental inventory and development suitability analysis for the Hardin property which was recently acquired by the University of Georgia.

*LAND 1600 – Reading the Landscape*

Significantly revised this freshman introductory class to present a rigorous survey of information necessary for beginning landscape architects to successfully observe, interpret and communicate information about the landscape around them.
