Rome Neighborhood
In the heart of the Rome Neighborhood, there lies the Hart County Training School. Hart County Training School was a pillar in the community for many years. It is now known as the Hart County Headstart.

Goals for this area are:

- Design and use of the gymnasium
- Placemaking and historical understanding
- Engagement of residents
- Improvements of sidewalks and pedestrian infrastructure
- Expand Downtown mural project into Rome
The old gym is currently located on the same lot as the Headstart school.

Currently, the gymnasium is in need of repair. The old basketball courts have now been paved over and are used for traffic circulation.
Revitalizing Rome

With this in mind, we came up with new ideas that will allow for a new community recreation area.
Revitalizing Rome
Revitalizing Rome

Community Center - Gym
Here are two examples of Community Centers that have outdoor courts and have picnic areas, walking paths, and a gymnasium.

Both spaces are well maintained and offer activities for people of all ages.

We want to create a place that fosters community amongst residents of all ages while revitalizing important pieces of history.
