

Carroll County, Georgia

Findings

The Center for Community Design and Preservation (CCDP) located within the University of Georgia’s College of Environment + Design (CED) conducted a Phase I historic resource survey of Carroll County, Georgia from June through September, 2007. The project area covered the approximately 450 square miles of unincorporated land within county limits. The county is bordered by Paulding to the north, Douglas and Fulton to the east, Coweta to the southeast, Heard to the southeast, Haralson to the northwest, and Alabama to the west.

The resource survey was performed by graduate students in the Masters of Historic Preservation program (MHP) and the Masters of Landscape Architecture program (MLA) at the CED. The survey consisted of background research, windshield and pedestrian field work, data collection and analysis.

Summary

A total of 197 resources were documented that meet and maintain a minimum level of age, integrity, and significance. The construction date of all identified resources range from 1770-1966. The period with the most extant resources is 1910-1919 with 53 resources (27%) followed by 1900-1909 with 52 (26.4%). This 20 year period accounts for more than half of the remaining resources for the county, with the majority of the other resources coming from the few decades immediately before or after these years.

Of the resources, 157 are buildings and 40 are burial sites. From the buildings surveyed, 45 are vacant, 98 are single family dwellings, 2 are stores, 2 are religious facilities, and 4 multifamily dwellings. The styles identified from the single family dwellings and the vacant buildings are Craftsman (12), Folk Victorian (5), Neoclassical Revival (2), Queen Anne Revival (3), a single Gothic Revival and a single Stick Style. There are 114 which did not exhibit any type of High Style architecture, and are consider to be of no academic style.

Field Surveyors:

Lindsay Johnson and Annie Kampenin
