

Greene County, Georgia

Findings

The Center for Community Design and Preservation (CCDP) located within the University of Georgia’s College of Environment + Design (CED) conducted a Phase I historic resource survey of Walker County, Georgia from September through December of 2009. The project area covered the approximately 420 square miles of unincorporated land within county limits. The county is bordered by Tennessee to the north, Catoosa to the northeast, Whitefield to the east, Gordon to the southeast, Floyd and Chatooga to the south, Dade to the west, and Alabama to the southwest.

The resource survey was performed by graduate students in the Masters of Historic Preservation program (MHP) and the Masters of Landscape Architecture program (MLA) at the CED. The survey consisted of background research, windshield and pedestrian field work, data collection and analysis.

Summary

A total of 86 resources were documented that meet and maintain a minimum level of age, integrity, and significance. The construction date of all identified resources range from 1804-1939. There were equal numbers of resources (13) extant per decade from the 1880s through the 1910s with a peak decade from 1900-1909 with 16. Resources tapered off at either end of that range.

Of the resources 70 are buildings and 16 are burial sites. From the buildings surveyed, 13 are vacant, 52 are single family dwellings, 2 are religious facilities, and 1 is a store. Styles identified from the single family dwellings are Craftsman (4), Folk Victorian (6), Queen Anne Revival (3), Gothic Revival (3), one each of Colonial Revival, Federal, Federal Revival, Greek Revival, and Neoclassical Revival. 27 did not exhibit any type of High Style architecture, and are consider to be of no academic style.

Field Surveyors:

AEB, Mark Mooney, and Laura Kviklys
