

Warren County, Georgia

Findings

The Center for Community Design and Preservation (CCDP) located within the University of Georgia’s College of Environment + Design (CED) conducted a Phase I historic resource survey of Warren County, Georgia in December 2010. The project area covered the approximately 287 square miles. The city seat, Warrenton, is approximately 50 miles west of Augusta and approximately five miles south of Interstate 20. The resource survey was performed by historic preservation professionals, and graduate students in the Masters of Historic Preservation program (MHP) and the Masters of Landscape Architecture program (MLA) at the CED. The survey consisted of background research, windshield and pedestrian field work, data collection and analysis. The survey identified and documented all resources within county limits outside of incorporated areas.

Summary

A total of 47 resources were documented that meet and maintain a minimum level of age, integrity, and significance. The construction date of all identified resources range from 1821 to 1938; the period with the most extant resources is from 1910-1919 with 10 (21.3%), followed by 1890-1899 with 8 (17%). The majority of identified resources are single family dwellings (71.9%), with the most common identifiable types being craftsman (15.2%), Queen Anne Revival (10.9%), and Federal Revival (8.9%). Half of the buildings (50%) did not exhibit any type of High Style architecture, and are consider to be of no academic style. Cemeteries constituted 29.7% of the resources.
